

Carpet Cleaning

Livonia, Michigan's Top-Rated Residential and Commercial Carpet Cleaners

Our professional carpet cleaners take a natural approach to keeping your carpet looking like new.

Carpet care is one of the most confusing jobs a homeowner or business manager can be responsible for. Most people understand the importance of regular vacuuming and do it. But deep cleaning or stain removal for upholstery or carpets doesn't get done as much as needed. Unfortunately, procrastinating with professional carpet cleaning services can result in stains that seep into padding, allergens that affect your family, and even strange odors that can't be identified.

CALL NOW! (888)826-1777

Every day wear and tear, from foot oils and dirty shoes to pet dander and crumbs, all affect how your carpet looks, feels, and smells. Vacuuming on a regular basis will help keep dirt buildup to a minimum, but it is no substitute for a thorough carpet cleaning. DIY stain removers and carpet shampoos are often misused, damaging your carpet, adding a larger surface area for dirt and grime to stick to.

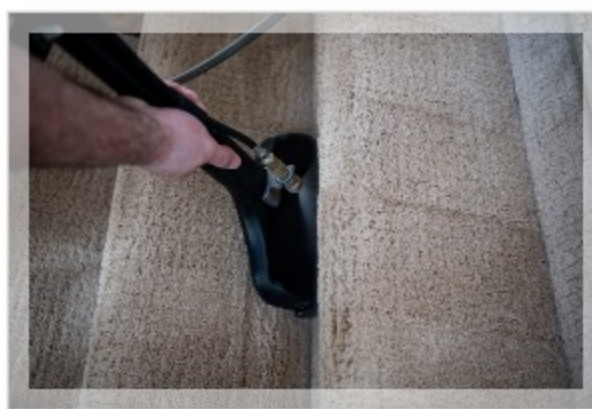

Finally, the Deep Clean You've Been Waiting For.

Regular Professional Carpet Cleaning Preserves Your Carpet

To extend the life of your carpet, schedule a commercial carpet cleaning at least once a year. If your carpet is subject to heavy traffic or pets, you may need our service 2-3 times per year. At the Greener Method, our water extraction method is effective, dependable, and gentle on your carpet. Our treatments are kid and pet-friendly, and safe for the environment. Our process involves using a machine to powerfully remove the dirt with a mixture of water and cleaning solution. This solution is then removed using the machine's powerful vacuum, taking with it all the dirt that has accumulated over time.

The Greener Method - We Use Only Environmentally Safe Products

We use plant-based, organic, and 100% biodegradable, green carpet cleaning products that are safe for carpets of all types, your family, and the environment. Our highly effective hot-water extraction truck-mounted cleaning system eliminates all the visible and invisible pollutants hiding in your carpet. From tough stains to strong odors, we can eliminate it all. In addition, our state-of-the-art equipment cuts drying time in half.

We Offer a Customized Maintenance Program for Your Carpet

Do you need to maintain a certain standard of cleanliness to comply with health code licenses or other professional certifications? Or, maybe you just want to present the best possible image to your customers. We are happy to customize a year-round maintenance program to meet your needs and regulations. We can even schedule around the operation of your business, so your work is never interrupted! Call us today and let us customize your business maintenance plan, for a cleaner and healthier work environment. We love working with our commercial customers to make sure their office environments are clean and healthy.

Expert Stain and Odor Removal

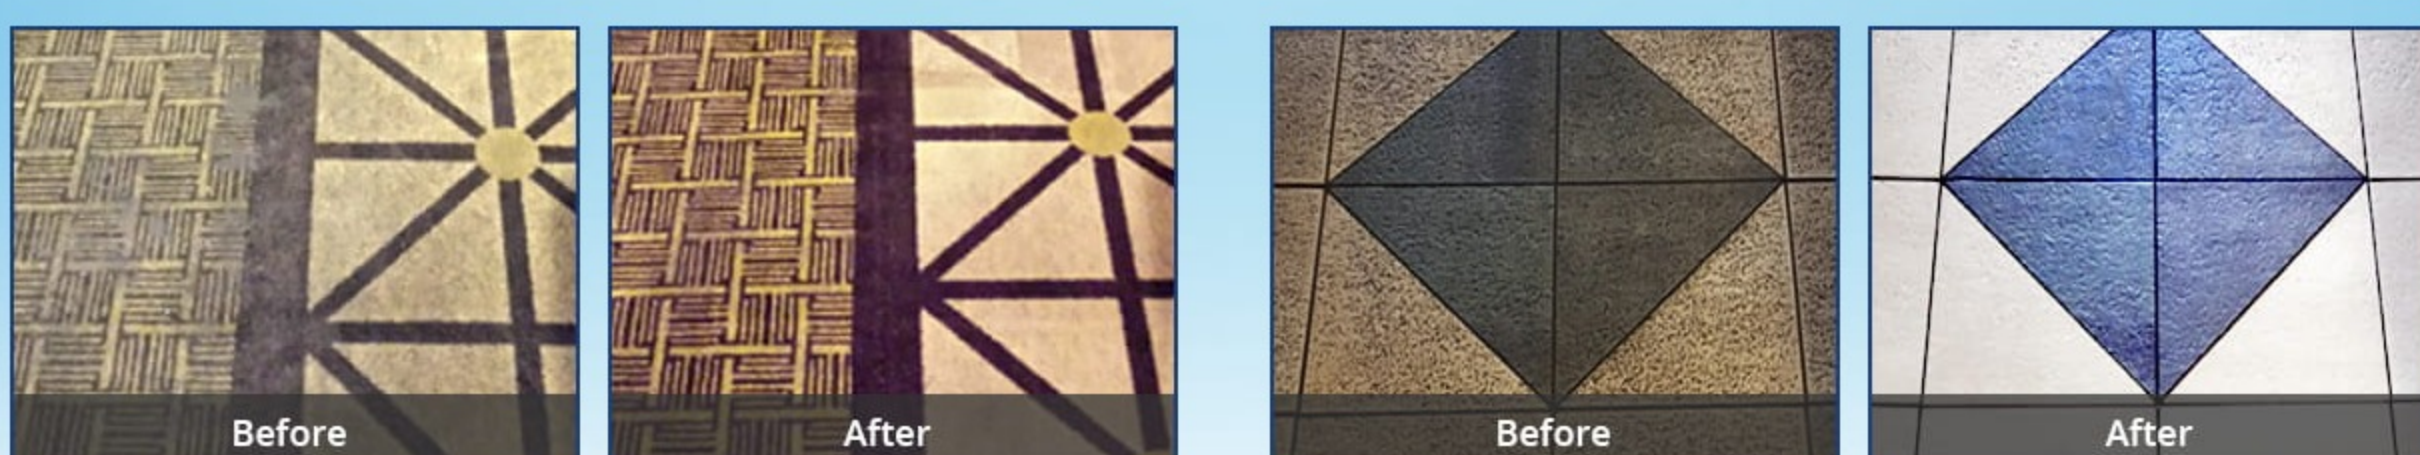

Does your carpet have heavy traffic areas where vacuuming doesn't seem to make a difference? Do you have spill marks that are not being removed by DIY stain treatments? When you come back into your home is there an overwhelming pet smell? You may be overdue for a professional cleaning and stain treatment.

Our professional team has the tools and experience needed to remove even the toughest stains and odors with proven methods that are guaranteed to protect your carpets. Don't make the mistake of trying to tackle difficult stains that are soiling the sensitive fibers of your carpeting on your own. Our environmentally friendly methods are highly effective at removing stains and gentle on your fabrics. After our professional carpet cleaning, your home will look and smell better!
